

OPTINANOPRO

Technology & Applications

Training & Dissemination Event

5th April 2018

PEMÜ, Terstyanszky Street 89, Solymar, H-2083

		Presenter
9.00	Arrival at PEMÜ & welcome, introduction to OptiNanoPro	PEMU & IRIS
09.15-10.00	Nanomaterials in polymer compounds – the physical properties that influence the compatibility and functionality of nanoadditives	HPX & MBN
10.00-10.45	Introduction to injection moulding technology (including video and showcasing of lightweight automotive parts and barrier packaging samples)	Eurecat & PEMU
10.45-11.00	Coffee break	
11.00-11.45	Nanomaterials safety	IOM
11.45-12.15	OptiNanoPro's impacts & contribution to technology developments (in-line analytics, electrospray, packaging application, OPV application)	Bioinicia, IRIS, SIBO, TUBA, OPV
12.15-12.30	Q&A
